

Research skills for evidence-based library and information work

Continued Professional Development for library and information staff in any sector

This workshop will enable participants to explore and develop their understanding of:

- What is meant by evidence-based librarianship and why this is important;
- What kinds of evidence we can use in our work;
- Research skills for evidence-based practice including survey design and use of focus groups for evaluating library and information services and obtaining user feedback; and
- Presenting the evidence.

Tutor: Dr Jessica Bates is the Course Director for the Postgraduate Certificate / Diploma / MSc in Library and Information Management at the School of Education, University of Ulster.

Date: 9th June 2011

Time: 2.00pm - 4.30pm

Location: South Building,
University of Ulster,
Coleraine Campus.

Cost: £45 (£20 for UU LRC staff)

Please post completed registration slip and payment to: Julie Pattison, Faculty of Social Sciences, University of Ulster, Jordanstown Campus, BT37 0QB.

*Please make cheque payable to 'University of Ulster'
