

Tried and tested technologies: Find out what's worth the effort in your Library

Hear about the experiences of others integrating technology into their libraries; what has worked, what hasn't.

Share your thoughts and experiences.

Watch demonstrations and have a go yourself with different ways of helping and communicating with your users, for example, have a play on an 'iPad', watch a Blog being written, etc.

Tried and Tested Technologies Study Day

11th November, 2011.

The Source, Meadowhall, Sheffield

Libraries for Nursing (LfN) is a partnership organisation of CILIP's Health Libraries Group. We work to support library and information staff in the nursing, midwifery and allied health fields.
