

Members of the SLG National Committee have produced a resource for book clubs, linked to 'being different'.

**INCLUDES FREE POSTER!**

This collection of discussion sheets has been written and put together by professional school librarians. They are not intended to be a scheme of work. Rather, they are a starting point for book groups and clubs to share some quality literature for children and young adults and, in doing so, explore a whole range of issues relating to identity, differences and adversity. We have chosen something for all ages, including picture books and poetry.

The pack will also be of interest to **PSE** and **English** teachers who could incorporate the activities into their subject areas, supporting the **Reading for Pleasure across the curriculum** agenda.
